

Product Overview

The Classic Vega grooved acoustic panel combines advanced sound absorption with contemporary aesthetics. Engineered for medium and low frequencies, it features a 7.5% perforation rate and achieves an NRC of 0.8. Available in a variety of artistic finishes, it enhances both acoustic performance and visual appeal in any environment.

Sound Absorption Data

Tested in accordance with ISO 354:2003, using acoustic fleece backed with 50mm fiberglass wool (density 48kg/m³).
